

Abby

16 Years Old

"I'm tired of being in foster care, I want to stay in one place and just be a normal kid with a normal life in a family who gets me."
-Abby

Abby is an outgoing, sarcastic, and spunky young girl who enjoys trying new things and staying active. She is working hard in school and wants to get a part time job. Abby wants to live in a family who likes to go out and do things together. She enjoys riding her bike, shopping, going out to eat and getting her nails done. Abby also understands the importance of friendships and she wants to stay in one place to be able to build close relationships with her peers. She needs a family who will guide her and help her navigate teenage friendships and models for her what healthy relationships look like.

Abby is a strong and brave child who has experienced trauma and loss, and it will take time for her to trust. She needs to feel she belongs, is accepted no matter what, and is loved unconditionally. Abby is unsure of what her future holds and needs guidance and support. She needs a family where she can get lots of one-on-one attention. She needs an active, loving, committed and patient family who are educated and experienced in parenting children with a history of trauma to support and walk with her on her journey of healing.
