

# Austin

Age 13

I like  
Ironman  
because  
he can fly.

Austin is a funny, energetic little boy who loves to play with cars and Legos. He also likes playing with bugs and riding bikes. He likes spending time with his foster parents but doesn't always get along with other children. Austin does not enjoy school and will often sleep instead of doing his work. He is a student in an alternative classroom so that he can get more individual attention from his teachers.

Austin wants a mother and father who are free with affection and who enjoy playing games. He is a very energetic little boy who wants to live in a neighborhood where he can ride his bike with other children. Austin's team is looking for a 2-parent home with no other children in the home. He really wants a mother to love and care for him and needs a father figure to teach him how to be a man. Austin wants a quiet family who enjoys spending time together and playing with him. Unfortunately, he also wants a King Cobra snake as a pet. Austin has 2 older brothers he does not live with and who were adopted separately. They have monthly sibling visits, and he looks forward to spending time with his brother. He also has 2 others who live with their birth parents and with whom he has no contact. He is very close with his current foster parents, and he would also like to remain in contact with them. He has lived with this family for several years and they know Austin best. They love him and would like him to be adopted into a loving family. They are willing to co-parent at the beginning of his transition to support Austin and his new family.
