

# Austin

Age 14

"I like Ironman because he can fly."

Austin is a funny energetic teen who loves to play with cars and Legos. He also likes riding bikes, playing Nintendo and with remote control cars and stuffed animals. He likes watching Power Rangers because he likes their suits. And his favorite movie is Hotel Transylvania because the characters are funny. "I'm nice and really lovable, give good hugs. I want parents who have lots of time to spend with me. I want to do art with them. Painting, arts and crafts, and hand painting. I love going to Carowinds because they have cotton candy and roller coasters, and ball and water shooting games."

Austin does not care about the race or religion of his family but wants a family that stays busy. He likes spending time with the adults in his life but doesn't always get along with other children. Austin does not enjoy school and will often sleep instead of doing his work. He is a student in an alternative classroom so that he can get more individual attention from his teachers. Austin wants a mother and father who are free with affection and who enjoy playing games. He is a very energetic boy who wants to live in a neighborhood where he can ride his bike with other children.

Austin's team is looking for a 2-parent home with no other children in the home. He really wants a mother to love and care for him and needs a father figure to teach him how to be a man. Austin wants a quiet family who enjoys spending time together and playing with him. Unfortunately, he also wants a King Cobra snake as a pet.

Austin has 2 older brothers who were adopted separately. They have monthly sibling visits, and he looks forward to spending time with his brothers. He also has 2 other brothers who live with their birth parents and with whom he has no contact.
