

Autumn

Age 14

Sweet &
Kind

Autumn is a teenager who likes school and who excels in math. A lot of kids say they don't like math, but Autumn is not like most kids. Autumn enjoys math and it is her best subject.

Autumn wishes to continue communication with her youngest brother. She wants a family that is willing to facilitate communication and visits. Autumn wants a family that will cheer for her at sporting events and participate with her. Autumn says she wants a family that will love her even when she does not make the best choices. She wants a mom that she can talk to about her problems and will guide her through being a teenager. Autumn is desperate for a loving mother figure, as that is who she misses the most from her biological family.
