

Bryson

Age 14

*"Family will never
turn their back on
you, and don't
give up on you."*

Bryson is smart, funny, helpful, playful, protective, and friendly. He enjoys spicy food. He prefers non-processed foods and likes to eat healthy food. He likes going to the grocery store and shopping in the fruits and vegetables section. He also likes spicy food like Takis. Bryson likes The Flash because he's really fast. His favorite subject is Math, and he enjoys being challenged to complete math equations.

Bryson enjoys football, basketball, riding his bike, listening to music, drawing, and skateboarding. He likes video games, building things (especially with Legos), puzzles, board games, and outside time. He wants to be a police officer "because they save people" or work in construction.

Bryson's family will be funny and nice, help him, and take care of him. His family will go to the arcade, out to eat, play games together, watch TV, play outside, play video games, and watch movies. His family will feel safe and will talk to him and listen when he talks to them. He said, "The most important thing is family".
