

# Kristen

## Age 14

"I am smart,  
sweet,  
and nice."

"I'm in the 8th grade. I like all my classes. During down time I like to watch movies or go shopping. Tyler Perry's *Sistas* is my favorite TV show. I also like to watch people dancing on TikTok. My favorite colors are purple, red, and black. I like doing my hair and nails.

I am a mixed kid, so race does not matter to me. But I would probably be more comfortable with a black or interracial family. I want to be with a family who likes to stay busy doing things. I like to travel to different places, and I like to go shopping. I also like to spend time together and cook at home. I like church and like to go every week."

Kristen would be OK with one or two other children in the home either older or younger. She wants to be a nurse or a doctor because she likes helping others. She is mature for her age and is a good communicator. She would do best in a structured environment where she knows what the rules and boundaries are.
