Lacie is a sweet young lady who will crack a joke any chance she gets. She likes to be the center of attention and is drawn to the adults in a family. Like most children her age, Lacie loves electronics. She thrives with structure and rules, however, will push the boundaries with rules. Lacie likes to make others laugh.

Lacie understands what adoption means and wants to be adopted. She understands that her biological parents were not able to care for her properly and knows that they tried. Lacie talks about adoption often and has open conversations with the adults in her life about her desire to be adopted.

Lacie would benefit from a two-parent home that can focus on Lacie and her needs. Lacie thrives on positive attention but can struggle when other children are in the home sharing that attention. Lacie's family would need to be structured and firm all while showing grace and forgiveness. Lacie has a strong desire to fit in and be part of a forever family.
