

# Toy

Age 17

Fun  
Independent  
Bright

Toy is described by those who know him best as a funny and playful guy with a huge heart. Toy can be shy when you first meet him, but he is a loyal friend once he gets to know you. Toy's favorite activities include playing basketball, video games, building things with Legos, and just being outside doing activities.

Toy wants to be adopted and he wants to have siblings in his new home, though families without children will also be considered. Toy would do best in a two-parent family with parents who are able to devote time and attention to him. He needs structure, consistency, and clear boundaries in his home environment. Toy also thrives when given the opportunity to engage in sports and other extracurricular activities. An experienced family who understands trauma will help Toy reach his tremendous potential for success.
