

William

Age 12

**Energetic
Inquisitive
Happy**

William is a sweet, energetic young man with a very inquisitive mind. Like many boys his age, William enjoys being outside playing with his friends, watching superhero movies, playing video games and building with Legos. William welcomes trying new activities and currently plays on a community soccer team. William shares that he really likes to eat and some of his favorite foods are cheeseburgers, chicken stir fry and cereal.

William is caring, loyal and excited to find a family to call his own. He desires an adoptive family that has pets or would allow him to get his own dog, cat, or hamster to take care of. It is important to William that his adoptive family is an active family who participates in activities within their community and takes family vacations, as he greatly desires to see the ocean and the beach.

The team feels that William would benefit from a family that will patiently work with his current team to learn how to best support his needs for the future and address needs and desires, as well as maintaining contact with his siblings who are also in care.
